Containing the Freſheſt Advices, Foreign and Domeſtick.

Meſſieurs FRANKLIN and HALL,

As frequent Complaints have been lately made to the Magiſtrates of the City of Philadelphia, *that Negroes, and other Blacks, either Free, or under Pretence of Freedom, have reſorted to, and ſettled in the City; and that Slaves, contracting to pay certain Sums of Money to their Maſters, or Owners, have been permitted to wander abroad, and ſeek their own Employment; ſeveral of which Negroes, claiming Freedom, and wandering Slaves, have taken Houſes, Rooms, or Cellars, for their Habitations, where great Diſorders often happen, eſpecially in the Night-time; and Servants, Slaves, and other idle and vagrant Perſons, are entertained, corrupted and encouraged to commit Felonies, and other miſchievous Offences, to the great Annoyance and Danger of the Neighbours reſiding near to ſuch Habitations, and the manifeſt Injury and Damage of the honeſt Inhabitants of the City. To the End therefore, that all Perſons may pay due Obedience to the good and wholeſome Laws of the Province, enacted for the Security of the People againſt ſuch Evils, you are deſired to inſert the following Clauſes of two Acts of Aſſembly, in your next Paper.*

Law-Book, Pages 85, 86.

AND be it further enacted by the Authority aforeſaid, that if any Negroe ſhall preſume to carry any Guns, Sword, Piſtol, Fowling-Piece, Clubs or other Arms or Weapons whatſoever, without his Maſter's ſpecial Licence for the ſame, and be convicted thereof before a Magiſtrate, he ſhall be whip'd with Twenty-one Laſhes, on his bare Back.

And be it further enacted by the Authority aforeſaid, that for preventing Negroes meeting and accompanying together on the Firſt-Days of the Week, or any other Day or Time, in great Companies or Numbers; that if any Perſon or Perſons give Notice thereof, and to whom they reſpectively belong, to any Juſtice of the Peace within this Province, the ſame being above the Number of four in Company, and upon no lawful Buſineſs of their Maſters or Owners, ſuch Negroes ſo offending ſhall be publickly whip'd, at the Diſcretion of one Juſtice of the Peace, not exceeding Thirty-nine Laſhes.

Pages 337, 338, 339, 340.

And whereas 'tis found by Experience, that free Negroes are an idle, ſlothful People; and often prove burthenſom to the Neighbourhood, and afford ill Examples to other Negroes: Therefore be it enacted by the Authority aforeſaid, That if any Maſter or Miſtreſs ſhall diſcharge or ſet free any Negroe, he or ſhe ſhall enter into Recognizance at the reſpective County-Court, with ſufficient Sureties, in the Sum of *Thirty Pounds*, to ſecure and indemnify the City, Townſhip or County where he reſides, from any Charge or Incumbrance they may bring upon the ſame, in caſe ſuch Negroe, by Sickneſs or otherwiſe, be rendered uncapable to ſupport him or herſelf; but until ſuch Recognizance be given, ſuch Negroes ſhall not be deemed free.

And if any Negroe be made free by the Will or Teſtament of any Perſon deceaſed, then the Executor or Executors of the Deceaſed, or ſome other Perſon, ſhall enter into the like Recognizance as above, immediately upon proving the ſaid Will, or otherwiſe the ſaid Negroe ſhall not be deemed free.

And be it further enacted by the Authority aforeſaid, That if any free Negroe, fit and able to work, ſhall neglect ſo to do, and loiter or miſpend his or her Time, or wander from Place to Place, any two Magiſtrates next adjoining are hereby impowered and required, to bind out to Service ſuch Negroe from Year to Year, as to them ſhall ſeem meet.

And if any Negroe be ſet free under the Age of Twenty-one Years, or where there be any Children of free Negroes, it ſhall and may be lawful for the Overſeers of the Poor, and they are hereby ordered, with the Aſſent of two or more Juſtices of the Peace, to bind out to Service ſuch Negroe or Negroes, a Man Child until he comes to the Age of Twenty-four Years, and a Woman Child to the Age of Twenty-one.

And be it further enacted by the Authority aforeſaid, that if any free Negroe or Mulatto ſhall harbour or entertain any Negroe, Indian or Mulatto Slave, or Servant, in his or her Houſe, without the Leave and Conſent of their reſpective Maſter or Miſtreſs, he or ſhe ſhall forfeit and pay the Sum of *Five Shillings*, for the firſt Hour, and *One Shilling* for every Hour afterwards, they ſhall be ſo harboured or entertained.

And if any free Negroe or Mulattoe ſhall barter, trade or any ways deal with any Negroe or other Slave without Licence had as aboveſaid, he or ſhe ſhall make Reſtitution to the Party grieved, and alſo be publickly whipp'd, not exceeding Twenty-one Laſhes.

And be it further enacted by the Authority aforeſaid, that if any free Negroe or Mulatto ſhall refuſe or be unable to pay his or her Fine or Forfeiture as aforeſaid, it ſhall and may be lawful to and for the Juſtice before whom ſuch Matter is tried, to order Satisfaction by Servitude.

And whereas a good Regulation and ſuitable Management of Negroes is very much conducive to the Safety and Peace, as well as Advantage of thoſe Countries, which are poſſeſs'd of any Number of them, Therefore be it enacted by the Authority aforeſaid, That if any Negroe ſhall at any time be found tippling or drinking in or near any Houſe or Shop where ſtrong Liquors are ſold, or be found out of or abſent from his Maſter or Miſtreſs's Houſe after nine a Clock at Night, without Licence from his ſaid Maſter or Miſtreſs, ſhall be whipp'd on his or her bare Back, at his Maſter's or Owner's own Coſt, not exceeding ten Laſhes, by Order of any Juſtice of the Peace.

And be it further enacted by the Authority aforeſaid, That whoever ſhall take up any Negroe above ten Miles from his or her Maſter or Miſtreſs's Habitation, who hath not Leave in Writing from his or her ſaid Maſter or Miſtreſs, or are not known to be on their Service, he, ſhe or they, ſo taken up ſhall be whipp'd by Order of any Juſtice of the Peace, on the bare Back, at the Owner's Charge, not exceeding ten Laſhes; and the Taker-up ſhall have for his Reward *Five Shillings*, with Reaſonable Charge for carrying him or them home, paid by the Maſter or Miſtreſs of the ſaid Negroe.

And be it enacted by the Authority aforeſaid, That no Maſter or Miſtreſs of any Negroe ſhall hereafter, for any Reward, Sum or Sums of Money ſtipulated and agreed upon between them, or upon any other Pretence whatſoever, permit or ſuffer his or their Negroes to ramble about, under Pretence of getting Work, give Liberty to their Negroes to ſeek their own Employ, and ſo go to work at their own Wills, under the Penalty of *Twenty Shillings*, for every ſuch Offence.

And be it further enacted by the Authority aforeſaid, That no Perſon or Perſons whatſoever ſhall employ or knowingly harbour, conceal or entertain other People's Slaves, at their Houſes, Out-houſes or Plantations, without the Maſter or Owner's Conſent, excepting in Diſtreſs of Weather, or other extraordinary Occaſion, under the Penalty of *Thirty Shillings*, for every Twenty-four Hours he or they ſhall entertain or harbour him or them as aforeſaid.

By Capt. Vardill *arrived at* New-York *from* Newcaſtle, *there are the following Advices.*

Corunna, in Spain, November 2.

AT La Grana in the Harbour of Ferrol, where three Men of War, of 70 Guns each, were riding at their Moorings, all diſarmed and lately careened, having only their Boatſwains, with a few Boys on board to take Care of them, viz. the Invincible, Vencedor, and Tyger, with four ſmall Ships called, Packets or Advice Boats, a Fire broke out in the Forecaſtle or Cook-Room of the Invincible, on the 30th paſt, about one a Clock in the Morning which burnt with ſuch Violence, that it ſoon conſumed and parted her Cables, and put her adrift, and then bearing down with the Tide, ſhe immediately run her Head cloſe up to the Vencedor's Stern, and continued grappled there ſo long, as to ſet her alſo quite in a Flame, and ſoon burnt down to her Stern, which diſentangled the Invincible, and then ſhe drove very near the Tyger; but the People having by that Time, cut her looſe from her Moorings, as likewiſe the four Advice Boats, they got her and them, near the Shore, ſo as to be juſt clear of the Fire ſhip, as the Invincible might juſtly be termed: The Current drove her a little to the Eaſtward, and fixed her on Shore againſt the Rocks, where ſhe could do no further Damage; and the Vencedor continued burning at her Moorings till late the next Day, when ſhe was reduced to the Waters Edge. They were both fine new Ships, built at the Havanna, and came home with the firſt Flota that arrived from thence, after the late War. The Boatſwains of the two Ships immediately fled to the Convent; but Soldiers were ſoon ſent to take them from thence; tho' it is not believed, that either of them were guilty, but only ſo much frighted as ſcarcely to know what they did. No body can tell how the Fire firſt happened.

LONDON, October 18.

By the foreign Gazettes we find, that tho' the Convention with Spain was ſigned ſo early as the 24th of September N. S. yet moſt of the foreign Miniſters at Madrid knew nothing of it till the 12th of October. The following are the principal Articles of it, as publiſhed in the ſaid Gazettes.

"The King of Spain engages to pay to the South-Sea Company, within the Space of three Months, the Sum of 100,000 Pounds Sterling, by Way of Indemnification, as well for the Non-execution of the Aſſiento Treaty of the 13th of March 1713, as to make them Amends for the four Years in which they did not ſend their annual Ship.

As to the Trade and Navigation of the Engliſh in the Ports of the King of Spain's Dominions, the Treaties of 1667 and 1670, that of Utrecht of the Year 1713, the 1ſt, 4th, 5th and 7th Articles of the Treaty of 1715, and that of 1721, ſhall be punctually obſerved and executed.

In Conſequence of theſe Diſpoſitions, the Engliſh Ships that may come to trade in the Ports of his Catholick Majeſty, ſhall pay no other Duties for the Goods they export or import, than what they paid in the Reign of Charles the Second, of Spain.

Moreover, the Subjects of Great-Britain ſhall pay in the Places where they come to traffick, only the ſame Duties as are laid on the Subjects of his Catholick Majeſty, who means, that the Engliſh ſhall be treated in his Dominions, on the ſame Footing as the Nations the moſt favoured.

And laſtly that they ſhall continue to enjoy the Liberty of taking Salt in the Iſland of Tortuga, poſſeſſed by the Spaniards.

We don't find a Word about cutting Logwood in the Bay of Campeachy, nor concerning a *Free Navigation* without *Search* or *Viſit* on the *High-Seas* in the Weſt Indies. However they obſerve, that the Convention has given great Satisfaction at Hanover, and alſo to the South-Sea Company."

'Tis ſaid that the Parliament will not ſit for Buſineſs till about the Middle of January.

October 30. They write from Hamburgh, that 16 Ships, with all their Cargoes, were lately loſt in the Gulph of Finland.

November 1. By Letters of the 20th of October, the Bedford and Argyle Buſſes had caught between

tween them, 240 Barrels of the fineſt large re-packt Herrings, and were in no doubt of compleating their Loading in a very few Days.

According to the Intelligence which the Dutch News Writers pretend to receive from their London Correſpondents, our Government has lately diſpatched an Expreſs to Paris, with freſh Inſtructions to his Majeſty's Commiſſaries, relating to the Affairs that are to be diſcuſſed in the Conferences with the French Commiſſaries; which Inſtructions they ſay, are conformable to what was ſtipulated in the 12th Article of the Treaty of Utrecht, as well with Reſpect to the Limits of Acadia or Nova-Scotia, as concerning the Fiſhery, which the French are not allowed to carry on nearer than 30 Leagues from the Eaſtern Coaſt of Nova-Scotia, &c. Mention is alſo made in the ſaid Inſtructions, of the Sovereignty over the Iſlands of St. Lucia, St. Vincent, and Dominico, which the Britiſh Crown forms Pretenſions to, grounded upon an ancient Title, confirmed and ratified by the Treaty of Breda.

Nov. 6. From Liſbon we learn, that the Scheme preſented to the Portugueſe Miniſtry, for ſetting up divers Manufactures of Cloth and Stuffs, of ſuch Kinds as are moſt call'd for in their American Colonies, is not likely to be approved, becauſe they imagine, that it would occaſion ſome Diſorder or Prejudice to their Commerce in general, however beneficial it might prove to the Projectors in particular. In ſhort, they think it would leſſen the Returns of Weſt-India Commodities, great Part of which is taken off their Hands by Foreigners, and that it would likewiſe leſſen the Demand upon them for Gold; and therefore, as they have too much Money, they think they may very well go on as uſual, remain idle, and let Foreigners work for them.

The Letters of late from France touch but very ſlightly upon political Affairs, and thoſe that do, ſtill repeat, that the miniſtry as well as the King entertain the moſt pacifick Sentiments; that they have no Deſign of troubling, in any Manner whatever, the Repoſe ſo happily re-eſtabliſhed in Europe; that France is in Earneſt purſuing this Scheme, having no other Views than to cauſe the Commerce, as well within as without the Kingdom, to flouriſh, and re-eſtabliſh the Finances, in order to be able, in ſome few Years, to eaſe the People by taking off the moſt burthenſome Taxes. Nevertheleſs, ſeveral Perſons of Underſtanding, who pretend to know France perfectly well, very much doubt whether the Views of that Crown are as ſalutary and pacifick as ſome People affect to give out they are. They think that what is alledged concerning the Deſign of eaſing the People in a few Years, is nothing but a Pretence for ſtill continuing the Taxes, and the real Point in View is to fill the King's Coffers. This, ſay they, muſt certainly be the Deſign of the French Miniſtry; ſince without Regard to the ſeveral Events which may poſſibly happen, and which human Prudence could not forſee, Affairs are in ſuch a Situation, both in the North and the South, as almoſt requires a Miracle to prevent a Quarrel breaking out. They are in both Quarters upon the *Qui vive*, and though they do not at preſent act, they have put themſelves in a Condition of doing ſo upon the leaſt Occaſion. If what they write from Switzerland be true, that the antient Alliance between France and the Helvetick Body is renewing, there is no Room for People in the laſt Way of thinking, to prognoſtick any Good for the Repoſe of Europe. France has almoſt always avoided renewing this Alliance, as the affecting it would, it was known, be an Affair of great Expence. There is no other way of accounting for its determining to do it at this Juncture, when Peace is every where enjoyed, than that it has extenſive Views to accompliſh.

'Tis confirmed from Peterſbourg, that the Court is taking effectual Meaſures to prevent the Tartars from making Inroads into the Territories of the Empreſs; and that the Election of a Duke of Courland is likely to be put off till next Year.

ANNAPOLIS, January 23.

Laſt Week a fine large Bridge over Patuxent River was carried away by the Freſhes.

Saturday laſt an old Man, ſuppoſed to be near Seventy, was found almoſt Dead, and quite Speechleſs, at a little Diſtance from Town, and taken up in a Cart and brought in, where he died ſoon after. All that we can learn about him, is, that he came from one of the lower Counties, and had been ſome days at and about South River-Ferry, pretending to tell Fortunes.

Laſt Monday Night, and Tueſday Morning, we had a very violent Southerly Wind, attended with ſome Lightning. The Wind has done a great deal of Damage in all Parts of the Country which we have as yet heard from, by blowing down Tobacco Houſes full of Tobacco, and deſtroying other Buildings and much Fences, no leſs than four Tobacco Houſes were blown down on Mr. Hunt's Plantation near South River. In Town it blew down ſeveral uninhabited Buildings, and greatly terrified the Inhabitants of old Houſes.

We hear from over South River, that they are much peſter'd with Mad Dogs, who have bit ſeveral Cattle and Hogs which have died mad.

January 30. We are informed that a Portugueſe Sailor on board a Veſſel on the other Side of the Bay ſtabb'd one of his Brother Seamen in the Back as he was ſtooping down, in a moſt baſe and cowardly Manner, ſo that he ſoon after died. A ſpecial Commiſſion is iſſued for his Trial.

Since our laſt we have heard of much more Damage done by the late violent Storm of Wind, in blowing down a vaſt many Tobacco Houſes, and many other Houſes, in all Parts of the Province; as well as Fences, and a prodigious Number of the fineſt Timber Trees; in ſome Places ſweeping down almoſt all before it. In Baltimore County a Child was cruſhed to Death by the Fall of a Houſe, the reſt of the Family narrowly eſcaping; one Gentleman in that County is ſuppoſed to have ſuffer'd above 200 l. Damage, and ſcarce any Body but what has ſuffer'd by it more or leſs; many Cattle, Sheep, &c. have been kill'd; and the like was never known here by the oldeſt Man in the Country.

Charles-Town, in South Carolina, January 28.

Laſt Monday Night we had a violent Storm of Wind, with Rain, which laſted 4 or 5 Hours; in which a ſhip from Antigua, one Allen, Maſter, was drove aſhore on Sullivant's Iſland, a Part of Lloyd's Bridge was carried away, and a Brig overſet thereat; ſeveral loaded Pettiauguas up the Rivers, were drove aſhore, and Trees blown up by the Roots, in the Country; and Capt. Boyd's Sloop, with other Veſſels, were driven aſhore at Port-Royal: The Wind roſe at S. E. and changed to S. W. but had it been at E. or N. E. it would have made terrible Havock among the Shipping in this Harbour.

Halifax, Nova Scotia, January 30. By Letters from England we have Advice, that Admiral Boſcawen will be here early in the Spring, with his Squadron at leaſt. This is good News; but we have very ſanguine Expectations of great Things to be done in the Spring, which we wiſh to ſee.

BOSTON, February 4.

Extract of a Letter from Providence in Rh. Iſland Colony, Jan. 22.

"We had Yeſterday a moſt violent Storm, the Wind about S. S. E. which drove in the Tide to ſuch a Degree, that it roſe much higher than has been known theſe 30 Years paſt. Moſt all the Wharfs are much damaged; the Warehouſes that ſtood on them much hurt, ſome carried off, and great Quantities of Salt entirely loſt, likewiſe a great deal of Sugar, and many other Articles: The Bridge is prodigiouſly ſhattered. The Rain deſcended, and the Floods came in a moſt ſhocking Manner! At the ſame Time Fire was cried in ſeveral Places, occaſioned by the Waters penetrating into ſome Hogſheads of Lime, ſtored away in Warehouſes in ſeveral Parts of the Town. Great Horror and Affrightment ſeized the People; but thro' Divine Goodneſs the Fires were moſt happily and immediately extinguiſhed. The Storm increaſed for three Hours from half Flood, but abated at high Water ſuddenly, and People ſoon appeared with their own Faces.----The Damage is computed at above l. 20,000 old Tenor.

We hear from Newport on Rh. Iſland, that in the late Storm, a Brigantine from London bound to that Place, was forced aſhore on Long Iſland, at high Water, but 'twas thought the Cargo would be ſaved.

We hear from Saliſbury, that on the ſecond Inſtant, Mr. Jeremiah Morriel of that Town, was ſtruck dead in a moment, by falling under the Iron work Wheel, as he was ſtanding before it to beat off the Ice.

Jan. 11. Wedneſday laſt a Child about fifteen Months old, fell thro, a Trap-Door into the Cellar, that had about a Foot and an Half of Water in it, in the ſoutherly Part of this Town, and was drowned.

About 7 o'Clock laſt Friday Evening as Capt. Benjamin Blany, of Malden, was riding up to the Tavern in that Town his Horſe ſtarted at the Sight of the Lights in the Houſe, (as is ſuppoſed) and threw him with his Head againſt a Rock, which kill'd him upon the Spot.

About a Fortnight ago, Capt. M'Kown, in a Sloop, having been at Annapolis, put into George's River, and ſent his Mate and Boy in the Boat to Mr. M'Intyre, his Owner, who lived about eight Miles up the ſaid River, to receive his Orders about loading the Sloop; but not being able to proceed in the Boat, they travelled by Land to the Houſe, and Mr. M'Intyre having a ſmall Float, he and the two Men embark'd in it for the Sloop, but in going down the River, the Float overſet, and the People were all drowned.

NEW-YORK, February 25.

This City has continued to be infeſted with Pillages and Robberies for ſome Time paſt; and one Day laſt Week a Woman having privately got into a Houſe near the Fly-Market, had made up two Bundles of the beſt Things ſhe could find in the Houſe, which were conſiderable, and in the Evening was making off; but happily the Street Door being ſhut, ſhe made a Noiſe in endeavouring to open it; which brought the Woman of the Houſe to the Door: The Thief had laid down the Bundles, and the Miſtreſs being ſurprized, opened the Door, by which Means, ſhe eſcaped, but without the Booty, and by the Manner of their being done up, 'tis tho't ſhe muſt have lain concealed in the Houſe ſeveral Hours.

And on Thurſday laſt, ſome Perſons who had loſt ſundry Things, having got Intelligence, that one Elizabeth Herbert, a ſuſpected Perſon, who came from Philadelphia, with a Man at whoſe Houſe ſhe lodged here, had gone off in a Boat with ſome Bundles for New-Brunſwick: They got a Pettiauger and went after them: They came up with the boat near Elizabeth-Town Point, and on ſearching the Bundles, found moſt of the Things they had miſs'd; whereupon they brought them both back, and committed them to Jail:------They have been ſince examin'd, and the Proof ſeems full againſt them This Woman was tried here but a few Weeks ago for ſtealing, and would have been then burnt in the Hand, but was begg'd off: There appears to be a Gang of them, tho' it is ſuppoſed theſe two are the Chiefs; and 'tis hoped will meet with the Reward their Merits deſerve: There is a Piece of blue and white Handkerchiefs found among the Goods ſuppoſed to be ſtolen, for which no Owner has yet appeared, and ſundry other Goods.

ANDREW LAMB,

Is removed to Mr. Abraham Taylor's Alley, near Second-ſtreet, which was formerly a ſchool with good conveniencies, and continues to qualify youth for buſineſs, &c. viz.

WRiting, arithmetick, vulgar and decimal, merchants accounts, the Italian method, by double entry, and Cr. the only true way that is now uſed; Navigation in all parts, both theory and practice, viz. Geometry, Trigonometry, Plain-ſailing; Traverſe, Mercator, and Parallel Sailing; Bearing and Diſtance of Land, and Current Sailing. All theſe geometrically, logorithmically and inſtrumentally performed, the practice, which is the main thing intended; and here I give you a complete journal from the Lizard to the Rock of Lisbon, with lee-way and variation allowed each courſe, and rules to them, and an amplitude at ſun riſing or ſetting, and applied to eaſt and weſt variation; this is one of the journals that I keep, and is therefore recommended to all ingenious artiſts, as a pattern for any other voyage; and I can ſhew ſeveral journals of my own works to the American plantations, and one from England to Cape Henlopen, in 28 days, 1748. And to make mercator charts in a new and eaſy method, and to work any journal in them, which makes a traverſe in the mercator charts, and is proved ſo exactly the proportions in mercators ſailing, by the latitudes and longitudes every day at noon; and ſheweth the plain tract which the ſhip makes the whole voyage, and a true method to correct all journals, and bring the ſhip ſafely to the deſired port, which is the only thing intended by a good journal. Alſo Surveying, Gauging, Dialling, Spherical Geometry, Trigonometry in all the various cases, Great Circle-Sailing, applied in ſeveral problems, which prove meridional parts in mercators ſailing to a fair demonſtration, the application of all in the moſt uſeful and neceſſary problems of great variety of aſtronomy. All theſe are carefully taught and diligently attended, by ANDREW LAMB.

N. B. I teach in their own houſes at certain hours, when deſired, with due attendance and diligence. I have above 30 years experience in teaching both the theory and practice of navigation.

Sailors, take a friend's advice, be not cheated by land-men that pretend to navigation; for they know nothing of a ſea-chart, which is the principal thing you want to know, and the uſe of the charts: My ſcholars are qualified to go mates the firſt voyage, and bring me a good account of their journals.
